

Project Demo Video Planning

1. Objective

The objective of the project demo video is to clearly demonstrate the working functionality of the Automated Employee Onboarding & Offboarding System, showcasing how the system automates HR processes, improves efficiency, and manages employee lifecycle activities.

2. Target Audience

- **Project evaluators and academic reviewers**
 - **HR professionals and system users**
 - **Software development teams**
 - **Stakeholders and management**
-

3. Video Duration

- **Recommended duration: 5 to 10 minutes**
 - **Maximum duration: 15 minutes (if detailed walkthrough is required)**
-

4. Video Structure

1. Introduction (30–60 seconds)

- **Project title: Automated Employee Onboarding & Offboarding System**
 - **Brief explanation of the problem statement**
 - **Purpose of the system**
-

2. System Overview (1–2 minutes)

- **High-level explanation of system architecture**
- **Modules included:**
 - **Employee Management**
 - **Onboarding Workflow**
 - **Offboarding Workflow**

- **Document Management**
 - **Asset Tracking**
 - **Reporting Dashboard**
-

3. Login & Authentication (1 minute)

- **Demonstrate login page**
 - **Show role-based access (Admin / HR / IT / Manager)**
 - **Explain security features**
-

4. Onboarding Process Demo (2–3 minutes)

- **Add new employee**
 - **Show automated workflow initiation**
 - **Task assignment (HR, IT, Manager)**
 - **Document upload and verification**
 - **Asset allocation**
 - **Status tracking in dashboard**
-

5. Offboarding Process Demo (2–3 minutes)

- **Initiate exit request**
 - **Approval workflow**
 - **Asset return tracking**
 - **Access revocation process**
 - **Final clearance generation**
 - **Employee status update to inactive**
-

6. Dashboard & Reports (1–2 minutes)

- **Display real-time dashboard**
- **Show KPIs (Active Employees, Pending Tasks, Approvals)**

- **Demonstrate report generation (PDF/Excel)**
 - **Show audit logs and activity tracking**
-

7. Key Features Highlight (1 minute)

- **Automation of HR workflows**
 - **Real-time tracking system**
 - **Secure document handling**
 - **Role-based access control**
 - **Notification system**
-

8. Conclusion (30–60 seconds)

- **Summary of system benefits**
 - **Future enhancements (AI integration, mobile app, cloud deployment)**
 - **Final closing statement**
-

5. Tools for Video Creation

- **Screen recording: OBS Studio / Camtasia / Bandicam**
 - **Voice-over: Built-in microphone or external mic**
 - **Editing: Adobe Premiere Pro / Filmora / CapCut**
 - **UI Demo: Browser / Local application run**
-

6. Presentation Tips

- **Use clear narration and simple explanations**
 - **Highlight key features using zoom or cursor effects**
 - **Keep transitions smooth and professional**
 - **Use sample employee data for demonstration**
 - **Ensure readable UI during recording**
-

7. Sample Flow Sequence

- 1. Title Screen**
 - 2. Login Page**
 - 3. Dashboard Overview**
 - 4. Add Employee (Onboarding)**
 - 5. Workflow Execution**
 - 6. Offboarding Process**
 - 7. Reports & Analytics**
 - 8. Closing Screen**
-

8. Summary

The project demo video effectively communicates the functionality, workflow automation, and real-world applicability of the system. A well-structured video enhances understanding and improves evaluation outcomes by clearly demonstrating system capabilities.
