

Visual Demonstration

1. Overview

The visual demonstration provides a step-by-step representation of how the Automated Employee Onboarding & Offboarding System functions in real-time. It showcases the user interface, workflow execution, and system responses to user actions.

2. Login Interface

The system begins with a secure login screen where users authenticate based on their roles.

Visual Elements:

- Username and password fields
- Role selection (Admin / HR / IT / Manager)
- Login button
- Forgot password option

Purpose:

Ensures secure access and role-based entry into the system.

3. Dashboard View

After login, users are redirected to the main dashboard.

Visual Elements:

- KPI cards (Total Employees, Active Onboarding, Pending Tasks)
- Navigation sidebar (Employee, Onboarding, Offboarding, Reports)
- Activity feed
- Notification panel

Purpose:

Provides a centralized overview of system activities and status.

4. Employee Onboarding Screen

This section demonstrates adding a new employee into the system.

Visual Elements:

- Employee registration form
- Fields: Name, Department, Designation, Email, Joining Date
- Submit button
- Auto-generated Employee ID

Workflow Display:

HR → IT Setup → Manager Approval → Completion

5. Workflow Execution View

The system visually tracks onboarding progress.

Visual Elements:

- Horizontal workflow timeline
- Status indicators (Pending, In Progress, Completed)
- Task assignment cards
- Progress bar

Purpose:

Shows real-time automation of tasks across departments.

6. Document Upload & Verification

Demonstrates document management functionality.

Visual Elements:

- Upload button (Drag & Drop support)
 - Document list (Aadhaar, Offer Letter, ID Proof)
 - Verification status tags
 - Download option
-

7. Offboarding Process View

Displays employee exit workflow.

Visual Elements:

- Exit request form
- Approval workflow chain
- Asset return checklist
- Access revocation status

Workflow:

HR Initiation → Manager Approval → IT Deactivation → Final Clearance

8. Asset Management Screen

Tracks company assets assigned to employees.

Visual Elements:

- Asset table (Laptop, ID Card, Devices)
 - Allocation status
 - Return tracking
 - Condition status
-

9. Reports & Analytics

Shows system-generated reports.

Visual Elements:

- Bar charts (Onboarding vs Offboarding)
 - Pie charts (Department distribution)
 - Export buttons (PDF/Excel)
 - Audit logs
-

10. Notifications Panel

Real-time system alerts and updates.

Visual Elements:

- Task reminders
- Approval requests

- **Deadline alerts**
 - **System messages**
-

11. Summary

The visual demonstration illustrates how the system integrates multiple HR processes into a unified automated platform. It highlights real-time tracking, workflow automation, and user-friendly interface design, ensuring transparency and efficiency in employee lifecycle management.
